EQUIPPED TO  
DO MORE.®

## PARTNERS IN PROGRESS

Day in and day out you face the challenges and the complexity of managing a productive, profitable and safe worksite.

Vermeer equipment is built to perform, convenient to maintain and has innovated features helping you get the most out of every day.

And when you take on tough tasks, you can be confident there is an expert nearby, ready to support your project with local knowledge, service, parts and exceptional customer service from the Vermeer dealer network.

## TABLE OF CONTENTS

- |   |                      |   |                    |
|---|----------------------|---|--------------------|
| 1 | Partners in Progress | 7 | Stump Cutters      |
| 3 | Brush Chippers       | 9 | Productivity Tools |
| 5 | Mini Skid Steers     |   |                    |

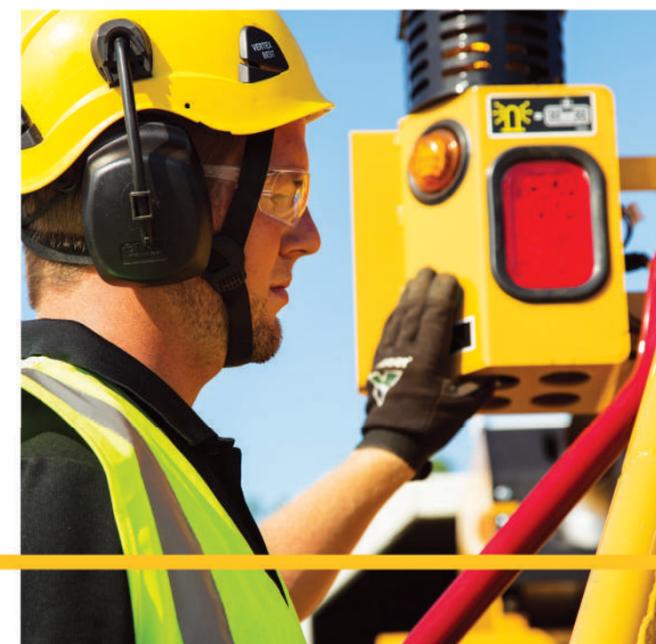

## JOB DONE MORE EFFICIENTLY

Built tough enough to withstand the daily grind, Vermeer brush chippers offer years of rugged and dependable service. Each is engineered with exclusive features that promote operator safety, easy operation, high efficiency and a wide range of chipping material capacity from 6" (15.2 cm) diameter up to 21" (53.3 cm). They're also convenient to maintain and transport, making Vermeer a great value for arborists, contractors and tree care crews looking to boost productivity and capitalize on secondary chip markets.

### THE VERMEER ADVANTAGE

- The SmartFeed feed-sensing control enhances productivity by stopping and reversing the feed roller to optimally process large, hardwood material.
- Ecolidle™ engine control system is adjustable, saves fuel and reduces noise by automatically reducing engine speed after one or five minutes of inactivity.
- Select models are available with a remote control, conveniently enabling operation from a loader while still maintaining control of the chipper.

\*Ecolidle is not available in all territories. For more information contact your local dealer.

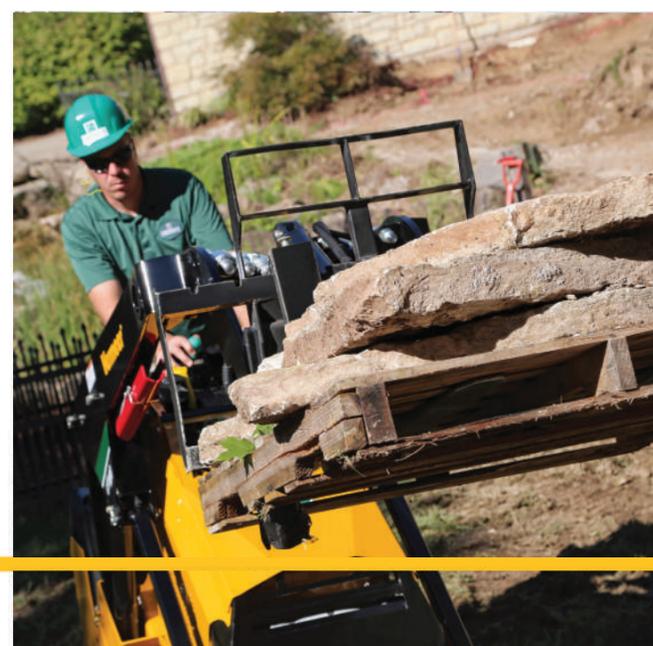

## DESIGNED FOR THE MULTITASKER

Vermeer is determined to make its family of mini skid steers the most productive, operator-friendly units in the industry. With different size and power options, the Vermeer lineup of mini skid steers can answer your material handling needs. Characterized by easy-to-use, single pilot-operated joysticks and a high track mounted sprocket design; Vermeer brings benefits in operator comfort, safety, productivity and reliability.

### THE VERMEER ADVANTAGE

- The single pilot-operated joystick offers the operator a smooth range of motion as opposed to multiple control levers.
- With a wide variety of attachments available, Vermeer mini skid steers are ready to tackle your tree care needs. Featuring a universal mounting plate, mini skid steer attachments are easy to hook up when there is no time to waste.
- Select models are equipped with dual hydraulic auxiliary adding a low-flow option to the hydraulic circuit to efficiently power demanding attachments exclusively designed for the tree care industry.

## PROVEN PERFORMANCE

Since Vermeer invented the stump cutter in the 1950s, stump removal is no longer the back-breaking, time-consuming chore it used to be. With a combination of power, ranging from 25 hp (18.6 kW) to 74 hp (55.2 kW), agility and toughness, the wide line of Vermeer stump cutters is ready to take the challenge on virtually any type of hardwood tree.

### THE VERMEER ADVANTAGE

- The exclusive SmartSweep™ control system monitors engine load and provides continuous feedback resulting in a smooth and consistent cutter wheel sweep rate.
- The proprietary Yellow Jacket™ cutter system is designed to provide faster, easier serviceability, as well as extended pocket and tooth life.
- Specific models have tracks and provide low ground bearing pressure, which helps reduce the possibility of turf damage.

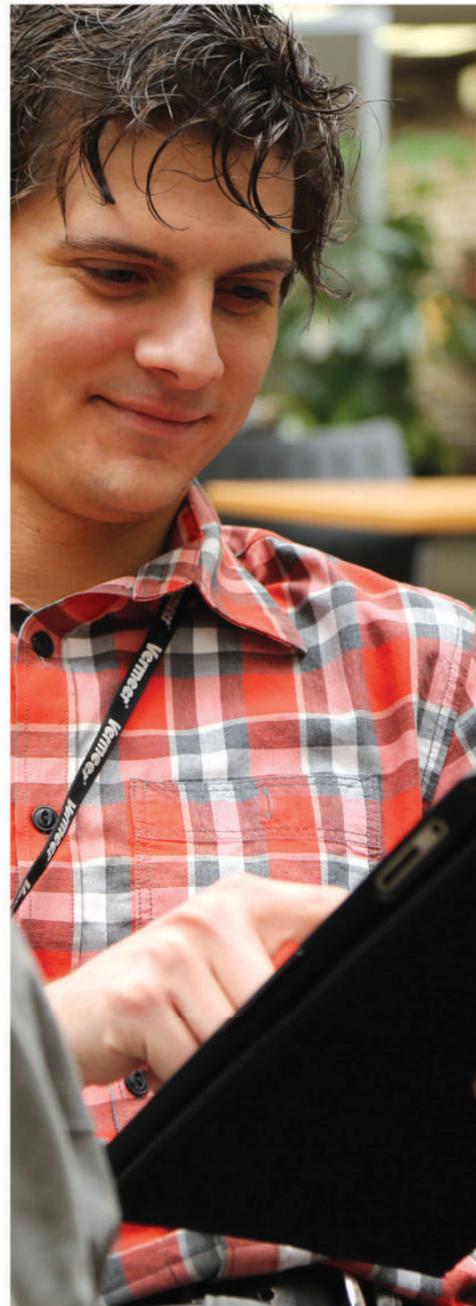

## WE'RE RIGHT THERE WITH YOU

For decades, Vermeer has approached tree care equipment with two things in mind – rugged machines and dependable service from the backyard to the backwoods. Today, Vermeer continues to explore innovative ways to sync your world with technological tools.

### THE VERMEER ADVANTAGE

- Treeviews.com provides in-depth and relevant information about the tree care industry. Whether it's content on building your team and your business, information on regulations, or job stories and recommendations for building your fleet, you'll find it here.

Your personalized equipment and support plan awaits.
